INFECTIOUS DISEASES

TUBERCULOSIS

One new case of pulmonary tuberculosis came to notice and one case of the non-pulmonary disease.

OTHER NOTIFIABLE DISEASES

The following cases were notified:-

Scarlet Fever	2
Infective Hepatitis	10
Meningococcal Infection	2
Typhoid	1

A REPORT

ON THE SANITARY CIRCUMSTANCES

OF THE WIGSTON URBAN DISTRICT

FOR THE YEAR ENDED 31st DECEMBER, 1972

H. DEAMER, M.A.P.H.I.

Chief Public Health Inspector

1. WATER SUPPLY

The water supplied to the district by the Leicester Water Department, has been satisfactory both in quality and quantity apart from occasional rust discolouration. Fluoridation is not practised and the water is neither hard nor plumbo solvent.

Of the 30,890 persons living in the 10,338 dwellings in the district, all but five persons have an internal water supply.

These five are in two isolated farm houses with a well water supply.

Examination of Water

(a) Mains Water

Forty two samples taken for bacteriological examination were all reported satisfactory.

(b) Well Water

Two samples of well water taken for bacteriological examination, after filtration by a household candle filter were reported satisfactory.

(c) Swimming Bath Water

Thirty seven samples of water were taken from the Council's public swimming bath for bacteriological examination.

The reports were satisfactory.

2. SEWERAGE AND SEWAGE DISPOSAL

Every part of the urban district is sewered with the exception of the east part and Kilby Bridge area.

Consequently only 46 dwellings are not drained into public sewers and more than half of these have water closets drained to septic tanks and filters or cesspools.

3. CESSPOOLS AND CLOSETS

It is estimated that there are 12,860 water closets in the district. There are 18 cesspools and 13 septic tanks and filter plants at private premises.

4. OFFICES, SHOPS & RAILWAY PREMISES ACT, 1963 AND
SHOPS ACT, 1950

In spite of the absence of the Technical Assistant during the last quarter of the year, due to illness, duties under these Acts were not relaxed.

It was necessary to carry out many inspections on Saturdays and Sundays, under the provisions of the Shops Act, 1950 to the Bell Street open market. Hostility was shown by some traders selling unexempted goods at the Sunday market and the London Group of Companies operating the market were unco-operative when approached regarding the offences.

Informal notices were served on all traders contravening the provisions of section 47 of the Shops Act and the market operators. This pressure, a gradual rejection of the Sunday market by the public and by the traders, resulted in the cessation of trading not only on Sundays but also Fridays and Saturdays, the other trading days. It is probable that the rejection by the traders stemmed from the operators policy of charging the traders two days rent for a week-end stall even if the trader did not want to trade on a Sunday.

The market site is subject to planning control until 24th June 1974, and I trust that if it is renewed the renewal will be subject to the market being conducted in a lawful manner.

Offices, Shops and Railway Premises Act					
Premises	Number Registered	Inspections	Accidents Reported	Contraventions	
				Found	Remedied
Offices	44	33	-	22	18
Shops	182	79	3	66	44
Wholesale Shops	8	3	-	3	6
Catering Establishments	20	76	-	-	-
	254	191	3	88	65

5. REFUSE COLLECTION AND DISPOSAL

These services are now under the control of the Engineer and Surveyors Department.

Disposal is by tipping but it is anticipated that the incinerator at Whetstone will be commissioned by the end of 1973.

6. CIVIC AMENITIES ACT, 1967

Abandoned cars

52 cars and 1 motor scooter abandoned in the district or "over parked" on Council owned car parks were dealt with during the year. 28 were non-runners or wrecks. 17 informal notices and 3 section 20 notices were served. 30 cars were removed by the owners and 22 cars and 1 scooter by my department. This work necessitated 145 visits including 23 visits to owners houses.

Thanks again due to the County Council and City Motor Taxation Departments for their help in tracing the owners of abandoned vehicles.

7. SANITARY INSPECTION OF THE AREA

729	recorded complaints were received
313	concerned infestations by rats and/or mice
416	concerned public health and housing matters
816	premises were visited concerning nuisances and defects

Visits and Inspections - initial and return

Outstanding 31st December 1972	Nil	-

8. REGULATED BUILDINGS

The caravan at Crow Mills is not now used as a dwelling.

A site licence in respect of the residential caravan in Cooks Lane has not been renewed pending action for removal of the dwelling under planning provisions. Alterations to and extensions around the former caravan have removed it from the category of "moveable dwelling".

9. PET ANIMALS ACT, 1951

There are three licenced establishments in the district. All have been well conducted during the year. One pet shop licenced during the year closed down. At another only fish are sold.

10. ANIMAL BOARDING ESTABLISHMENT

The licenced kennels and cattery in Newton Lane meet a local need for the boarding of cats and dogs, especially at holiday times, and the reception of stray animals picked up by the police etc.

11.

FOOD AND DRUGS ACT, 1955

FOOD HYGIENE (GENERAL) REGULATIONS, 1970

Number of food premises subject to these Regulations
grouped in categories of trade

UN SOUND FOOD AND FOREIGN OBJECTS IN FOOD

Complaints received and investigated under this heading included:-

- 1) Finger dressing in loaf of bread
 - 2) Plastic cup in loaf of bread
 - 3) Grub screw in loaf of bread
 - 4) Lubricating oil in four loaves of bread
 - 5) Flour beetle in loaf of bread
 - 6) Grit in imported canned ham
 - 7) Maggots in lard
 - 8) Pig bristles in pork sausages
 - 9) Mould in ice lolly mix sachet
 - 10) Vinegar eels in food shop decanter
 - 11) Dirty milk bottle
 - 12) Mould on fresh peaches
 - 13) Caterpillar in imported can of tomatoes
 - 14) Caterpillar in English can of peas
 - 15) Peat in can of mushrooms
 - 16) Mould on processed cheese
 - 17) Mould on jam
 - 18) Mould on pre-packed crumpets
- a) Referring to finger dressing in loaf, both the vendor and the supplier are to be proceeded against under section 2 of the Food and Drugs Act, 1955.
- b) Reference plastic cup in a loaf. Investigations revealed that the complete cup, of a type used in a drink vending machine at the bakery, had been placed on a ledge forming part of the machinery, vibration had caused it to fall on to the top of a baked loaf just prior to slicing, the cup had been sliced into the loaf and both wrapped.

All the other complaints were thoroughly investigated and informal action taken, as in no instance was it considered that the institution of legal proceedings was the best method of dealing with the matter or would be successful.

FOOD HYGIENE CAMPAIGN, 1972

In connection with this campaign 23 lectures were given, by the department's Public Health Inspectors, at schools and colleges and to adult organisations. It is estimated that over 1,650 people attended them - an average of over 70 persons per lecture.

The lectures were followed by a poster and essay competition for school children. 85 entries were received comprising 72 posters and 13 essays.

The entries were judged by a five member panel on the 3rd August and prizes were awarded as follows:-

Group (A) under 12 years of age - 79 entries

£3 - poster
£2 - poster
4 prizes of £1 for posters
6 prizes of 50p for posters
£3 - essay
£2 - essay
£1 - essay

Group (B) 12 to 14 years of age - 6 entries

£5 - outstanding poster
£1 - poster
£1 - poster

All the entrants received a certificate and all the prizewinners were taken on a tour of a biscuit factory and a meat etc. pie factory.

The Milk (Special Designation) Regulations, 1960/63.

Dairies and Distributors of Milk

	<u>Dairies</u>	<u>Distributors</u>
<u>Number on Register</u>	2	30
<u>Bacteriological milk samples</u>		
Pasteurised	5	
Sterilized	3	

All the samples satisfied the prescribed tests.

Ice - cream

64 premises are registered for the storage and sale of ice - cream - 5 less than last year.

53 samples of ice - cream and 1 lolly were procured and reported upon by the bacteriologist as follows:-

GRADE 1	49
GRADE 2	3
GRADE 3	1
GRADE 4	Nil

The lolly had a Ph. below 7.

Meat and otehr food inspection

The licenced slaughterhouse closed during the year.

Disposal of condemned food

The following foods were surrendered, condemned and disposed of by deep burial at the Council's Refuse Tip.

	Tons.	Cwts.	Qtrs.	Lbs.
Meat at slaughterhouse		1	-	12
Meat at retail shops		1	1	22
Canned meat			2	4
Other canned foods		11	1	6
Frozen foods due to cabinet breakdown		3	2	88
Other foods		2	0	10
	1	0	0	6

Carcases Inspected and Condemned

	Cattle excluding cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number killed	87	-	-	628	-	-
Number inspected	87	-	-	628	-	-
<u>All Diseases except Tuberculosis</u> Whole carcasses condemned						
Carcases of which some part or organ was condemned	6			24		
Percentage of number inspected affected with diseases other than tuberculosis	6.9%			3.8%		
<u>Tuberculosis only</u> Whole carcasses condemned						
Carcases of which some part or organ was condemned						
Percentage of the number inspected affected with tuberculosis						
<u>Cysticercosis</u> Carcases of which some part or organ was condemned						
Carcases submitted to treatment by refrigeration						
Generalised and totally condemned						

Knacker Yard

There is one establishment in the district and it has been well conducted.

No contraventions of The Meat (Sterilization) Regulations, 1969 have been recorded at either the Knacker Yard or pet shops.

12. NOISE ABATEMENT ACT, 1960

178 visits were made in respect of complaints of nuisance at 16 premises.

These complaints related to noise from:-

- 1) Early morning starting of diesel lorry
- 2) Two pop groups practicing in garages
- 3) Householder practicing drumming
- 4) Electricity generator at a factory
- 5) Outworkers machine
- 6) Conveyor ducts at a grain drying plant
- 7) Domestic T.V. set and piano

All the nuisances were abated informally.

13. RODENT CONTROL - PREVENTION OF DAMAGE BY PESTS ACT, 1949

The Department employs a trained Rodent Operator for 17½ hrs. per week. He is an old age pensioner and cannot work in excess of these hours. Consequently a great deal of rodent control has to be carried out by the Technical Assistant.

It is anticipated that with the amalgamation of the Oadby and Wigston U.D.C's the establishment will include a full time rodent operator with a motor van.

The destruction of rats, mice and wasps at dwellings is carried out free of charge but a charge is made in respect of industrial and commercial premises.

All premises and land owned by the Urban District Council and the public foul sewers are systematically inspected and treated against rodent and insect infestation.

181 visits were made to deal with 89 wasps nest

37 were inside buildings and 52 in gardens, hedges, etc.

a) Sewer baiting

There are approximately 1,400 sewer manholes in the district. During the year the sewers were treated for rats using fluoroacetamide as the poison and pin head oatmeal as the bait base.

b) Surface treatment

Under this heading 1,084 inspections were made by the Rodent Operator at 255 properties.

The approximate number of properties to be protected is 11,305.

No. of properties inspected as a result of:-

a) Notification	225
b) Survey under the Act etc.	30
	<hr/>
	255
	<hr/>

No. of properties found to be infested by:-

a) Rats	95
b) Mice	58
	<hr/>
	153
	<hr/>

Rat infestation on railway embankments and the sites of a former railway station, goods yard and waggon repair shops have caused concern. British Railways do not appear to have an adequate staff of Rodent Operators in the London Midland Region to deal quickly with infestations and prevent spread to adjoining private lands and properties.

14. HOUSING

One Clearance Area comprising 39 houses was declared during the year. The dwellings along with one fit house and shop are to be acquired by way of a Compulsory Purchase Order. The Order has not yet been confirmed.

Houses in Clearance Areas and Unfit houses elsewhere

	Displaced During Year	
	Persons	Families

15. FACTORIES

There are 183 factories on the register

a) Inspections

Premises	No. of Inspections	Defects Found	Defects Remedied	Notices Served
Factories with mechanical power	67	53	91	8
Factories without mechanical power	-	-	-	-
	67	53	91	8

b) Outworkers (Employed during the 6 months preceding August 1972)

No. of local firms employing outworkers	36 (20)
No. of local outworkers employed by such firms	149 (120)
No. of outworkers outside district employed by local firms	160 (105)
No. of local outworkers employed by firms outside district	37 (6)
No. of outworkers in district	186 (123)

* Figures in brackets for 1971.

The various trades carried on at factories in the urban area are:-

Abrasives manufacturing
Adhesives and sealer manufacturing
Agricultural machine repairing
Babywear making
Baking
Bar-fitting and plastic fabricating
Biscuit manufacturing
Boot and shoe manufacturing and incidental trades
Boot and shoe repairing
Building and joinery
Carton adaption and repairing
Concrete batching
Corset making
Cycle repairing
Cotton waste and bobbin recovery
Double glazing
Dyers and finishers
Drum and instrument making
Dress making
Electrical component making
Electro plating
Engineering - general
Engineering - light
Engineering - electrical
Football jersey and stocking making
Film laminating
Furniture repairing
Grain drying
Heating element making
Hosiery making, dyeing and finishing
Iron founding
Jersey fabric making
Knackery
Knitted outerwear making
Laundry
Leather factors and merchants
Loose cover making
Lighting and electronic engineering
Medical supplies distributing
Milk pasteurising
Motor vehicle repair and maintenance
Non-ferrous metal founding
Office machinery manufacturing
Paper baling
Plant hiring
Pattern making
Plastic moulding and colouring
Polystyrene tile colouring
Portable buildings manufacture
Pre-cast concrete manufacture
Printing
Photographic lithographers
Radio and television receiver repairing
Refrigeration engineering
Sausage, meat pie and cooked meat making and preparing
Scaffolding supplying and distributing

Trades in the area (continued):-

Slaughtering
Spring manufacturing
Tailoring
Woodwork and case repairing
Wood last making
Worsted spinning
Wool packing
Waterways maintenance

FACTORIES ACT, 1961

Prescribed particulars on the Administration of the Factories Act, 1961

PART 1

1. INSPECTIONS

Premises	No. on Register	Number of		
		Inspections	Written Notices	Occupiers Prosecuted
(i) Factories in which sections 1,2,3,4,& 6 are to be enforced by Local Authorities				
(ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority	183	67	8	-
(iii) Other Premises in which Section 7 is enforced by the Local Authority (excluding out-workers' premises)				
Total	183	67	8	-

2. Cases in which DEFECTS were found

Particulars	Number of cases in which defects were found			No. of cases in which prosecutions were instituted
	Found	Remedied	Referred	
			To HM Insp-ector By HM Insp-ector	
Want of cleanliness (S.1)				
Overcrowding (S.2)				
Unreasonable temperature (S.3)				
Inadequate ventilation (S.4)				
Ineffective drainage of floors (S.6)				
Sanitary Conveniences (S.7)				
a) Insufficient				
b) Unsuitable or defective	53	91		
c) Not separate for sexes				
Other offences against the Act (not including offences relating to Outwork)				
Total	53	91		

PART VIII

Outwork
(Sections 133 & 134)

	No. of out-workers in August list required by S.133 (1)c)	No. of cases of default in sending lists to the Council	No. of prosecutions for failure to supply lists	No. of instances of work in unwholesome premises	Notices served and prosecutions
Wearing Apparel Making etc. Cleaning and Washing	186				

16. CLEAN AIR ACT, 1956/58

Again I am pleased to report that there has been no serious industrial smoke problem in the district and that the number of domestic fireplaces and boilers burning bituminous coal, decline weekly, being replaced with appliances burning smokeless solid fuel and gas.

Trouble from a boiler with a fluctuating steam load has been removed by the installation of steam jets to increase turbulence over the furnace.

Ten observations of emissions from two industrial chimneys were made but only eleven visits were necessary during the year under the Act.

17. STAFF

With the increase in population and duties, the capabilities of the staff have been stretched, especially during the latter part of the year when the Technical Assistant was off ill.

It is anticipated, however, that in June 1973, the Student Public Health Inspector will qualify and when the amalgamation of Oadby and Wigston U.D.Councils is completed on 1st April 1974, a full time rodent operator will be employed.

I am indebted to the Engineer and Surveyor to the
Wigston Urban District Council for the following report:
